

## SL-3731A-RGB

### Highlight Features:

- Widely applied in public places, such as square, roadside and parks
- Stainless steel faceplate comes with Aluminum body
- LED Source: RGB (3in1)
- LED Quantity: 4
- LED Beam Angle: 120°
- Power consumption: 2W
- Input Voltage: 24VDC
- 50,000 hours life cycle

### Technical Characteristics:

- Operating temperature range -35 to +45 degree Celsius
- Waterproof, Protection grade: IP67
- Excellent water-resistant connector
- Environment humidity: 0 to 90%RH
- RoHS Compliant materials
- Weight: 0.6kg

### Design Application:

- Widely used for decorative lighting in gardens, streets, square, villa, parks, lawns, super markets, parking lots, exclusive stores
- Can make dynamic and beautiful scenes

**Installation:**
